Working to Benefit You

How the Connect America System works

When you need help, just press your button – anytime, anywhere.

Your information is sent to our emergency response center. A trained care specialist connects you through the speaker on your device and decides on the proper action to take.

The specialist sends the appropriate responder based on your needs – caregiver, family member, neighbor, or emergency services.

With Connect America, it's always your choice who you want to help you.

Over 10 million people have relied on Connect America to help them continue living independently.

Medical Alert System Benefits

- ✓ Immediate help at the press of a button – anytime, anywhere, 24/7/365
- ✓ Promotes independent living
- ✓ Provides peace of mind for family and loved ones
- ✓ Not just 911 – Trained care specialists can contact family, friends, or caregiver when an ambulance isn't needed

Options designed to fit a variety of needs

	HomeSafe Landline	HomeSafe Cellular	On the Go	On the Go Mini	Smartwatch
Coverage at home	✓	✓	✓	✓	✓
Coverage away from home			✓	✓	✓
Optional fall detection technology	✓	✓	✓	✓	✓
In-home communicator	✓	✓			
24/7 access to trained care specialists	✓	✓	✓	✓	✓

At-Home Systems

If you have a traditional landline at home, this service could be right for you.

- Compatible with most landline connections
- In-Home Communicator with two-way speaker
- Lightweight neck or wrist button can be worn in the shower or bath, but should not be submerged for extended periods of time
- 24/7 access to trained care specialists
- Battery backup protection
- \$17 per month / \$23 per month with fall detection

At-Home Landline

Optional fall detection pendant automatically calls for help after detecting a fall.

At-Home Systems

Many homes today do not have a landline installed. We have a service for that, too.

- No landline or cellular phone required
- No cellular contract required
- In-Home Communicator with two-way speaker
- Lightweight neck or wrist button can be worn safely in the shower or bath, but should not be submerged for extended periods of time
- Battery backup protection
- \$20 per month / \$26 per month with fall detection

At-Home Cellular

Optional fall detection pendant automatically calls for help after detecting a fall.

Mobile Systems

If you're an active adult, this service works both at home and on the go.

- No cellular phone or contract required
- Embedded GPS and Wi-Fi location technology
- Built-in speaker allows users to speak directly to a trained care specialist
- Waterproof pendant can be worn safely in the shower or tub, but should not be submerged for extended periods of time
- 4 to 5 days of battery life reduces the need for daily charging
- Optional built-in fall detection technology
- \$26 per month / \$32 per month with fall detection

Mobile OTG

Mobile Systems

On the Go Mini is our sleekest and most lightweight mobile offering.

- Operates over the cellular network; does not require a mobile or landline service
- GPS and Wi-Fi location technology
- Two-way voice communication allows users to speak directly with a trained care specialist
- Waterproof pendant can be safely worn while showering or bathing, but should not be submerged for extended periods of time
- Optional built-in fall detection technology
- Up to 42 hours between charges
- \$26 per month / \$32 per month with fall detection

Available in pendant or wrist-worn design

On the Go Mini

Mobile Systems

The smart way to stay active and independent

- Built-in microphone and speaker for clear, two-way communication
- GPS and Wi-Fi location technology enables us to identify the user's location
- Optional built-in fall detection technology
- Advanced motion and health sensors (heart rate and step count)
- Waterproof pendant can be worn safely in the shower or tub, but should not be submerged for extended periods of time
- Long lasting, rechargeable battery (up to 72 hours)
- \$26 per month / \$32 per month with fall detection

Smartwatch

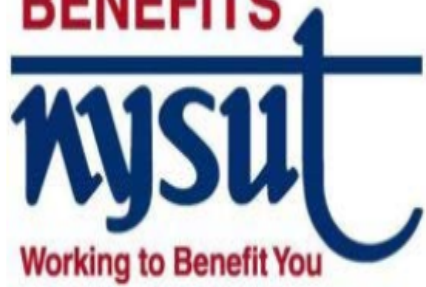

Lockbox

- Keep your home secure
- Prevent damages
- Custom 4-digit code
- FREE with all Medical Alert System orders

A photograph of three people playing cards in a bright room with large windows. An older man in a blue and red plaid shirt is laughing heartily while holding a fan of cards. To his left, a woman in a yellow shirt is also smiling. In the foreground, the hands of another person are visible, holding a hand of cards. The scene is lively and social.
